WHY OUR *Products*

CBD AMERICAN SHAMAN is a franchise that provides top quality CBD products with exclusive Proprietary Nanotechnology. CBD American Shaman's nanotechnology represents the ultimate refinement of hemp oil concentrate. Our unique process produces unmatched particle size, transforming cannabinoids into a bio-active state. This minute size allows the cannabinoids to cover a much greater surface area throughout the body. The smaller the particle size, the easier it is for the cells of your body to absorb it. Every time you cut the particle size in half, you increase its surface area. Think of the exponential surface area when you reduce particle sizes hundreds of times. This process will not only make hemp oil concentrate much more potent, it will make deliver time to the cells a matter of seconds; not hours!
